PHOTOGRAPHY & ILLUSTRATION
BY ANNA HEIMKREITER

2022 Catalogue

About the Artist

Anna Heimkreiter is a German artist and long-term traveler. Completely self-taught, she specializes in self-portrait photography and illustration. Her poetic images speak of a profound connection to nature, vulnerability, and a deep love for being alive. She longs to capture the complexity and beauty of human existence. Anna's art is made for fellow wanderers, nature lovers, dreamers, quiet souls, and brave explorers of the mysteries of life.

1 Two Types of Prints

Photographs are available as...

Limited Edition Prints

It is the work of a decade: This exclusive collection of self portraits is the pinnacle of my artistic journey from 2012 to 2022.

Each stand-alone piece carries a story for you to unfold - you may find the beauty of silence and solitude, the melody of the forest or the delicacy of deeply felt emotion speak to you through these images.

Once an artwork is sold out in each size, it will never be reprinted again.

Illustrations are available as...

Open Edition Prints

This carefully curated collection of digital paintings is made to inspire a deep sense of connection to yourself and the universe.

Since most of my illustration work has been intentionally created around a theme, these pieces are a great way to start a collection of several artworks from the same series.

Included are: "States of Consciousness", "The 7 Feminine Archetypes" & "Yoga through the Seasons".

Get to know the Fine Art Print Quality

Giclée Printing Process

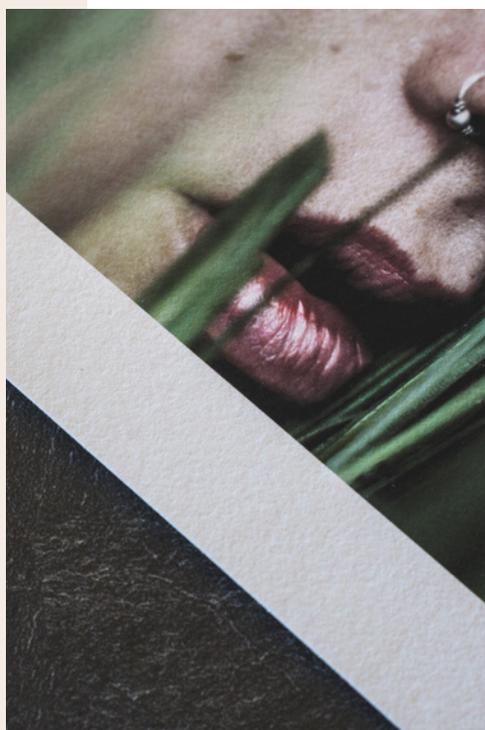

Fine Art Printing allows you to achieve reproductions of extraordinary quality, even at very large sizes. The magic of Giclée Prints lies in their unmatched depth and vividness. The paper and inks are of archival quality, meaning that their brilliance will last a lifetime - ideal for sophisticated art collectors.

Museum-Quality Paper

A print is only as good as its paper: The entire collection will be printed on one of the most beautiful Fine Art papers available, **Hahnemühle Photo Rag®**. The thick 308 g/m² paper, made from 100% cotton, with a matte finish makes artworks even more beautiful. It is highly light- and ageing-resistant. Up close, you will appreciate its delicate structure and incredible detail.

100% Carbon Neutral

Nature is what deeply inspires my life and art - so of course, for bringing this Fine Art Collection alive, I wanted it to be as sustainable as possible. Orders are fulfilled by theprintspace, UK's first fine art printing service that is 100% end-to-end carbon neutral. The prints, as well as the packaging, are all made from sustainable materials - it truly is art to feel good about.

About the Limited Edition Photography Prints

3

”

Discovering the art of self portraiture in my late teenage years was like opening a door - to a world dwelling deep inside of me, waiting to be expressed.

Since then, I have poured my soul into images, honing my craft, connecting with others on- and offline through art.

Releasing these images into the world for you to own is a truly special moment for me. They are not only the highest-quality work I have created in the last decade, they are literally "a piece of me" - a collection of incredibly personal moments representing the evolution of my art as I grew into adulthood.

This collection of Fine Art Prints breathes the very sense of wonder I feel when I'm out exploring, rooted in the spirit of nature and heartfelt emotions. I hope these images will move your soul as deeply as creating them has moved mine.

3 The Limited Edition

Of each artwork in the Limited Edition Collection, only a fixed number of prints will be produced (ever!). On the following pages, I will show you how many reproductions will be available in each size.

Along with size and value, the rarity of the prints increases. If you've been dreaming of getting a particular photograph of mine, it is best to make the purchase as soon as possible - or it could already be sold out forever.

Certificate of Authenticity

All Limited Edition Prints come with a numbered Certificate of Authenticity and a matching hologram patch.

The Certificate of Authenticity confirms the genuineness of the artwork and contains i.a. the title, edition number, production date and artist's signature.

Affix the hologram patch to the back of the frame of your print (not the print itself) and keep your Certificate of Authenticity in a safe place.

About the Open Edition Illustration Prints

”

Painting came (back) into my life unexpectedly. It was something I had loved as a child, but it was not until a sudden surge of inspiration while traveling that I rediscovered illustration as a medium of creative expression.

These selected works are deeply inspired by my personal spiritual journey and practice. I've found many deep lessons by surrendering to psychedelic experiences, exploring femininity, and learning about the ancient wisdom of yoga.

I truly believe in the healing powers of art and hope that these paintings can be a gateway for you - to find connection with your higher self, to feel strong and empowered, to sense the mystery and magic of our existence.

These artworks are dedicated to all humans on a journey. Let them be a guide on on your way home to yourself.
